Subject: Due Monday, February 11th, Fw: fracking Questions for the Record coming your way
[12-001-2174.pdf](#)

Hello,

Attached are the SEPW QFRs I mentioned in my earlier email. OCIR is providing these to me to send out so your OCIR contact probably has not seen this request. In light of the rush and the need to receive very concise responses I have been asked to circulate these. Please be sure to copy everyone on this email with your response since some folks will be reviewing responses in parallel with me. Please submit your responses as early as you can Monday afternoon but definitely by COB Monday in Times Roman Numeral 12 pt. I appreciate your assistance and apologize for the rush.

Below are the fracking questions to focus on along with my "best guess" as to the offices that should be the lead in preparing a response and the offices that should contribute pieces to be added to the lead response. Please take a look at the questions and let me know if I guessed wrong and the line-up needs to be changed.

Also, if the lead office would leave placeholders in their response I can integrate the non-lead office pieces into the lead office's response when everything arrives.

In addition, I have asked OCIR to identify previous responses that can address some of the questions but I won't see that until tomorrow and I didn't want to hold up getting this around. I will send that around as soon as it arrives. Again, thank you. Let me know of any questions, etc.

Mary

Subject: fracking Questions for the Record coming your way

Hello,

There are fracking questions for the record from a budget hearing that are coming to me tonight and they are due out Monday as I understand it. I will need your assistance in drafting short, concise responses in a short timeframe. Stay tuned and thank you in advance.

Mary
